

CREATE HARMONY IN YOUR HOME WITH THE
Aristos Art Frame™

Sensing the need to create harmony between art and technology and to integrate your flat-panel television with your home's ambiance and furnishings, our designers made it their mission to develop beautiful decorative frames that transform your flat-panel TV into a medium for displaying television content or exhibiting personal photos and art.

Aristos Art Frames™ are designed to fit perfectly over a television's bezel, covering the front and the sides of your flat-panel television.

Aristos Art Frames™ are made from the finest quality wood and crafted with proprietary mouldings designed for flat-panel televisions. Styles range from traditional to modern, ornate to minimal. A variety of finishes from dark mahogany to bird's eye maple are available.

By creating a frame for your flat-panel TV, you will be merging the art and technology in your home into one seamless form.

Aristos Art Frames™ provide you with the beauty and functionality of custom cabinetry in less space and at a fraction of the cost.

Aristos Art Frames™ have an embedded miniature Infra-Red Routing System™ (IRRS) that receives and transmits signals from a remote control to the television's IR sensor.

As your Aristos Art Frames™ dealer, we are available to assist you in selecting your customized frame. View the Aristos Art Frame™ collection in our online gallery at
